Skills

- C# | .NET | Java | JavaScript | Vue | jQuery | Git | Agile | Scrum | REST APIs | Entity Framework | Unit Testing | ASP.NET Razor | Blazor
- Azure | BugHerd | CI/CD | LINQ | Adobe Experience Manager(AEM) | OOP | Maven | Postman | ASP.NET Web Forms | DevOps
- Microservices | VB.NET | Unified Modeling Language | Frontend | Backend | Full-Stack | – *All professional proficiency or above*

Experience

Software Engineer   **Net Tango**   *Louisville, KY*   **12/2020 - 06/2023**

- Dove headfirst into multiple full stack .NET tech stacks by assisting with projects both individually and collaboratively. Helped drive over $5 million in revenue by writing clean, scalable, and maintainable C#, HTML, Visual Basic, Javascript, and SQL code.
- Built and maintained both code first and data first solutions using Entity Framework, keeping data secure but quickly accessible through client web apps using technologies like .NET MVC, Razor, and VueJs, contributing to the company's 100% client satisfaction rate.
- Cut manual processes with respect to project management by over 70% by writing a program that synchronizes distinct project management technologies (Azure DevOps and BugHerd), allowing the company to no longer have to identify when a client has made an update or bugfix request to a taskboard, nor manually update a given task in multiple places.
- Introduced Blazor to the company, after learning about it from both self study and coding conventions. This led to new growth amongst 90% of the development teams, as well as new company code libraries with custom, reusable components.
- Became Net Tango's technical expert on Adobe Experience Manager. developing, maintaining, and refactoring code for large enterprise clients. Taught other developers how to develop within AEM, resulting in a 30% increase to overall cross functionality.

IHD Technician   **Bluegrass Cellular**   *Elizabethtown, KY*   **09/2020 - 10/2020**

- Implemented both soft and hard skills to satisfy customer needs by troubleshooting various IT devices.

Education

Vocational   **Greater Knox Coding Academy**   *Elizabethtown, KY*   **01/2020 - 06/2020**

- Excelled within the first iteration of the Greater Knox Coding Academy, designed to employ software developers within Fort Knox.

Associate of Science   **Elizabethtown Community & Technical College**   *Elizabethtown, KY*   **08/2018 - 05/2020**

- Earned over 75 credit hours before graduating high school through both dual credit and workforce solutions programs.

Projects

- **Steve Bratcher Campaign Site:** Refreshed candidate Steve Bratcher's campaign website, utilizing Blazor, Azure Functions, and GitHub Actions. This project is still in development, as I strive to improve upon previous iterations.
- **Resume Website:** Designed and developed a resume website for myself, learning the basics of cloud development with Azure and GitHub Actions. **(04/2023)**

Certifications

- **ScrumAlliance Certified Scrum Developer CSD**: Participated in a Scrum workshop in order to boost company productivity. **(06/2022)**
- **Oracle Certified Associate Java SE 8**: One of only 3 students out of 37 to receive this certification. **(06/2020)**
- **Oracle Certified Junior Associate Java SE 8**: The first student of the Greater Knox Coding Academy to receive this certification. **(03/2020)**
- **NTier Agile/Scrum Practitioner**: Learned the basics of Agile development and applied those concepts to class projects. **(04/2020)**
- **CompTIA IT Fundamentals+**: Earned this certification in an effort to join the job market as soon as possible. **(12/2019)**
